Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The corrected or substitute drawings were received on October 10, 2002. These drawings are acceptable.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-9, 21-36, 48, and 49 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant has amended the claims by narrowing the scope by specifying that at least two message levels or distances must be different. There is no support for this in the original disclosure as the original disclosure only indicates that the message levels may vary but does not require this.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Art Unit: 2631

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claim 20 is rejected under 35 U.S.C. 102(e) as being anticipated by US Patent Number 6,049,229 to Manohar et al ("Manohar" hereinafter). Manohar discloses a receiver and method for identifying a message based upon a received signal comprising a processor (column 3, lines 14-17; figure 4) that generates thresholds representing a range of possible message levels, therefore creating a constellation design, and a comparator for identifying the message by comparing the received signal to the generated thresholds (column 3, lines 9-19; figure 4).

Allowable Subject Matter

6. Claims 10-19, 37-47, and 50 are allowed. Regarding claims 10-19, 47, and 50, prior art of record does not disclose calculating the distance between the maximum threshold of one signal level and the minimum threshold of another. Claims 37-46 are allowable for the reasons set forth in the first office action dated June 19, 2002 since applicant has formed independent claims using allowable subject matter of previously objected to claims.

Response to Arguments

7. Applicant's arguments with respect to claims 1-9 and 21-36 have been considered but are moot in view of the new ground(s) of rejection.

8. Applicant's arguments filed October 10, 2002 have been fully considered but they are not persuasive. Regarding claim 20, applicant has amended the claim by adding the limitation that the thresholds "for each possible signal level" may differ. However, stating that the reference levels *may* differ does not indicate that the signal level *must* differ for "each of the possible signal levels."

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
